

CEO's Welcome

Welcome to the world of The Educational Academy .

At the heart of Educational Academy's vision is to provide practical and usable learning and development opportunities in convenient learning packs. These packs can be tailored to individual or your business needs to ensure that you are always on top of your game. This promotes a continuous approach to learning and career development.

The aim of the Educational Academy is to offer relevant, cost & time effective development programmes using a range of flexible delivery methods.

The courses are designed to grow individuals, both personally and professionally, to equip them for a fulfilling life and career

In the current and future economic, technological and social environment it has become evident that personal development has become the key to both individual and global survival and growth.

Therefore it is imperative that the advantages offered by the digital age should be utilized to meet those needs in a flexible, relevant and cost effective way.

The Educational Academy meets that challenge.

Educational Academy has brought together a range of partners to ensure that your learning experience will be one of the best available to you in the comfort of your own home or from your office desk.

Affiliations and Memberships

The Educational Academy is recognised by International Accreditation and Recognition Council (IARC), a self regulating industry body of colleges and universities from a number of countries including India, Malaysia, Indonesia, Australia, USA and U.K. Certificates and Diplomas offered are accredited through IARC. For details see www.iarcedu.com

We are also an Approved Centre for the Chartered Institute of Procurement and Supply see www.CIPS.org

Our Philosophy

Students are our priority. Our policies and procedures are aimed at providing each student with the best possible education available at their chosen level. We make every attempt to assist students quickly and appropriately so they can successfully pursue their studies and achieve their goals.

The Educational Academy believes that good education develops a foundation for future success. Our courses prepare graduates to face any challenge that confronts them in the discipline for which they have been trained. We believe in providing a balanced education through development of knowledge, understanding and skills. A balanced education does more than provide information. It provides students with the ability to

select and use information effectively in any situation. It increases students' awareness of the changes occurring locally and globally in their chosen field, and nurtures their ability to adapt.

The Educational Academy knows that in today's world it is not enough to understand and know how to do something. Studying with the Educational Academy will be all about the application of knowledge, not simply acquiring knowledge. Through application student gain understanding and can adapt their understanding to any given situation.

The Educational Academy's global focus is also reflected in the flexible nature of our courses and our teaching. More than most courses, our courses have been written to meet the needs of a highly mobile global population. Thus, Educational Academy offers a range of online support together with blended learning approaches which enhance the opportunities to gain and apply your knowledge and understanding.

The Educational Academy's uniquely flexible approach and emphasises a transformational approach to learning. This simply means you learn not simply by listening to your tutors or reading texts but are fully engaged in the learning process. This approach allows you to bring your knowledge into the classroom such that your tutor and your peer group can learn from your experience. This provides for a stimulating dialogue for all to contribute to and learn from.

Enjoy the experience and apply it in your workplace. The Educational Academy approach is a powerful tool for building strong teams and solution builders.

With best wishes for your future study

James Ling CEO
